

MIRA EXPRESS

ECONOMICAL & ROBUST REPLAY SYSTEM

STORAGE SIMPLICITY

Mira Express employs plug-and-play dual SSD media for a simple file storage workflow. Quickly archive every frame of captured content and easily load your pre-packaged footage for the show at hand.

PROFESSIONAL 4-INPUT | 2-PLAYOUT REPLAY

Cover all the essential angles of your game with a fully featured replay server that records video and audio from four cameras, with silky-smooth slow-motion playback across two output channels.

INCREDIBLE VALUE

Priced at just \$26,900, including the ergonomic Mira Control Surface, Mira Express makes professional replay more accessible than ever before.

INTELLIGENT FILE-BASED OPERATIONS

Reduce cost and substantially streamline workflow with integrated media file import and export tools. Mira Express can ingest a wide variety of the most commonly used media file formats with ease.

ROCK-SOLID PERFORMANCE

Unique to replay systems at this price point, Mira Express benefits from highly stable professional broadcast hardware that operates independently from the replay application, ensuring you won't miss that unforgettable highlight.
