

Voyager Installation Guide

This document describes the installation procedure for Voyager software.

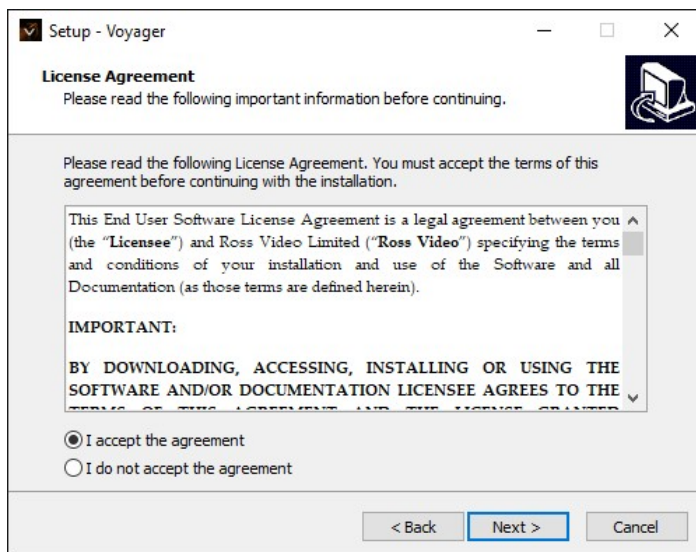

To install Voyager:

1. Double-click the **Voyager-X.x_xxxx.exe** file.

The Voyager **Setup Welcome** page opens.

2. Select **Next** to continue.
3. In the **License Agreement** page, read the license agreement, select **I accept the agreement** to continue the installation and select **Next**.

4. In the **Password** field, enter `doinstall` and select **Next**.

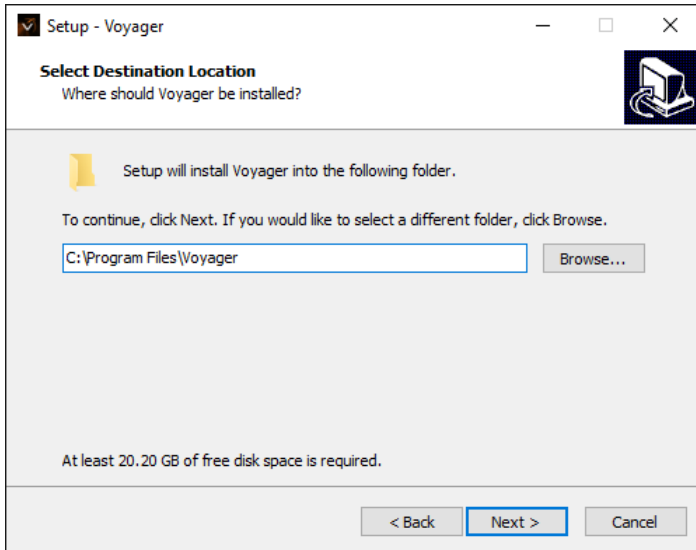

5. In the **User Information** page, enter your **User Name** (required) and **Organization** (optional) and select **Next**.

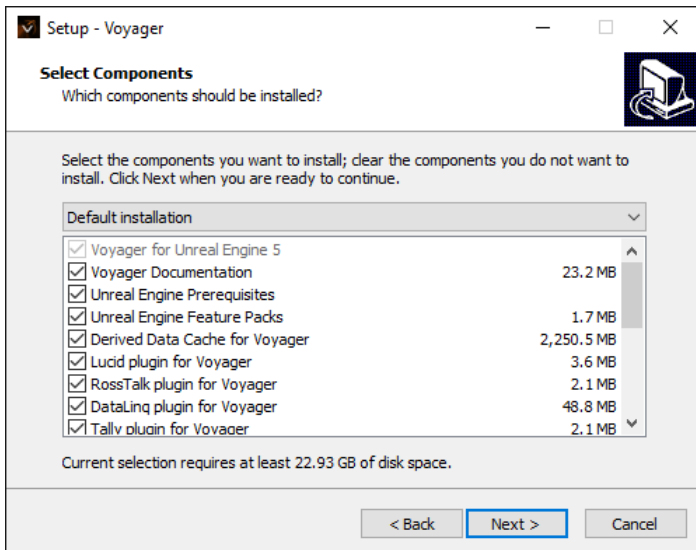

6. In the **Select Destination Location** page, select **Next** to accept the default location for the software or select the **Browse** button to navigate to the folder in which you want to install Voyager and then select **Next**.

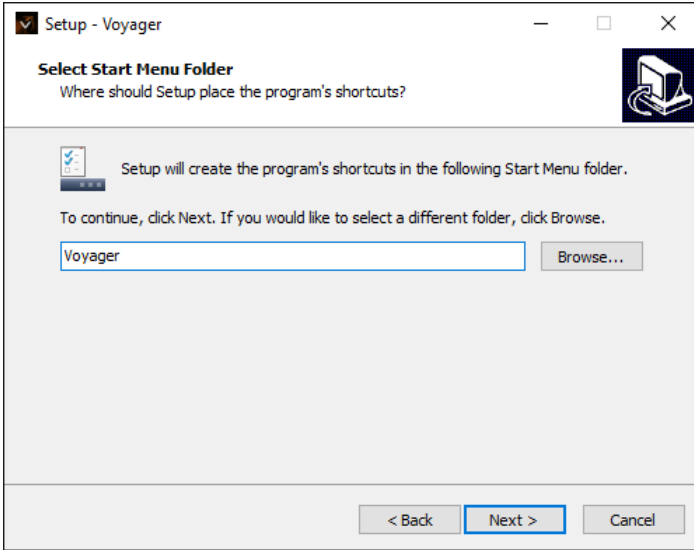

By default, the software is installed to **C:\Program Files\Voyager**.

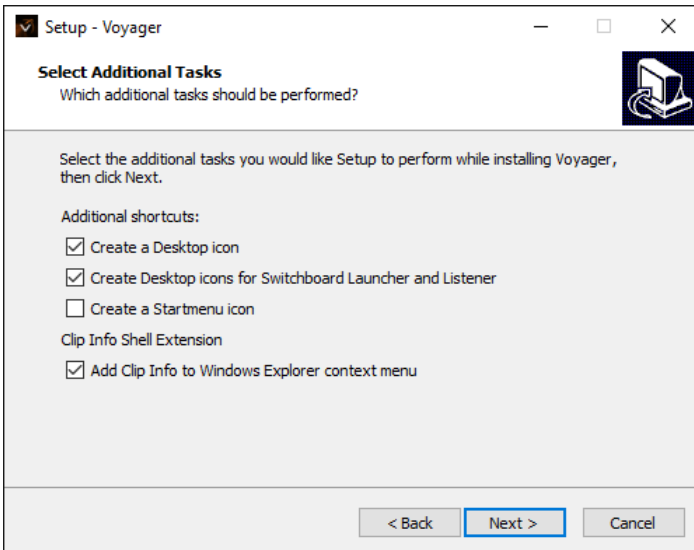

7. In the **Select Components** page, select the checkboxes for the components you want to install and then select **Next**.

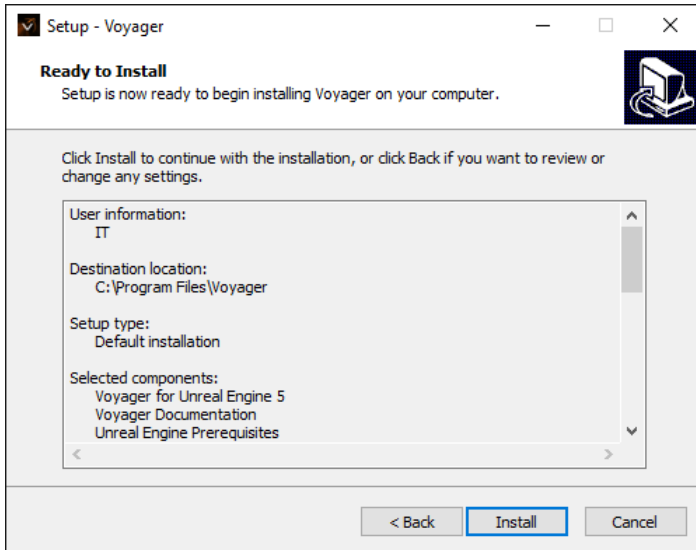

8. In the **Select Start Menu Folder** page, select **Next** to accept the default folder for the program's shortcuts. The default folder is **Voyager**.

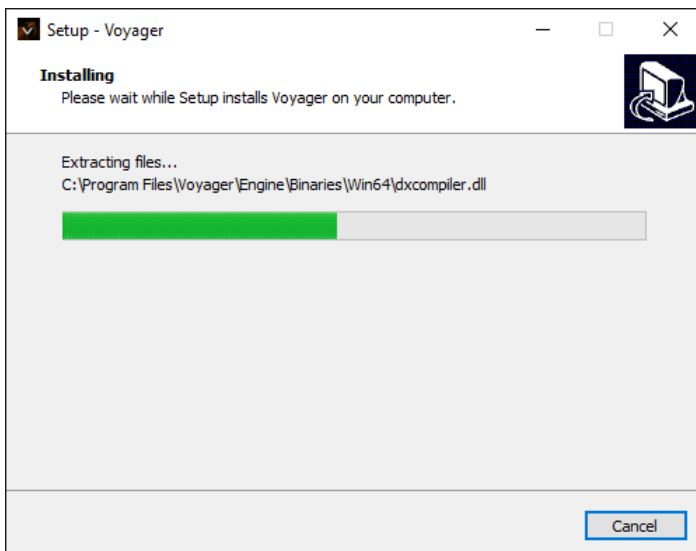

9. In the **Select Additional Tasks** page, select the checkboxes to install additional shortcuts and select **Next**.

10. In the **Ready to Install** page, select **Install** to begin the installation.

The **Installation Progress** page is displayed.

11. In the final page, select the **Show Changes** checkbox if you want to see what's changed in Voyager and then select **Finish** to exit Voyager setup.
