*For a lightweight installation where XPression is used exclusively for Raiden, it is acceptable to install the Story Creator application on the XPression engine's machine.

†Raiden uses the Ross Platform Manager (RPM) for license authentication and user rights. If RPM is first introduced for Raiden, it will be hosted on Machine 1. Otherwise, Raiden uses the customer's default RPM instance for broader Ross Video solutions.

Ross Video has a complete range of technical services available to ensure that your Raiden installation is a success.

Operational Training can be provided at Ross Video, on-site or on the web. Experienced Ross operators will teach your staff to get the most out of your new system and enhance your production.

Commissioning is a service to help get your graphics system properly configured, connected, and installed. This service is performed by factory trained Ross technical staff.

Technical Training can be provided at Ross Video, on-site or over the web. Technical training will teach your engineering staff the technical details of the system you have purchased. System configuration, interfaces, databases, and routine maintenance procedures are some of the topics covered.

Raiden comes standard with a 1-year system warranty (parts / labor & software updates) and 5-Years for Solid State Drives. **Extended Warranties** on hardware and software maintenance are available for an annual fee. Technical advice is available on-line, by telephone, or email to Ross Video – **Included for the life of your system.**
