

# Voyager Installation Guide

This document describes the installation procedure for Voyager software.

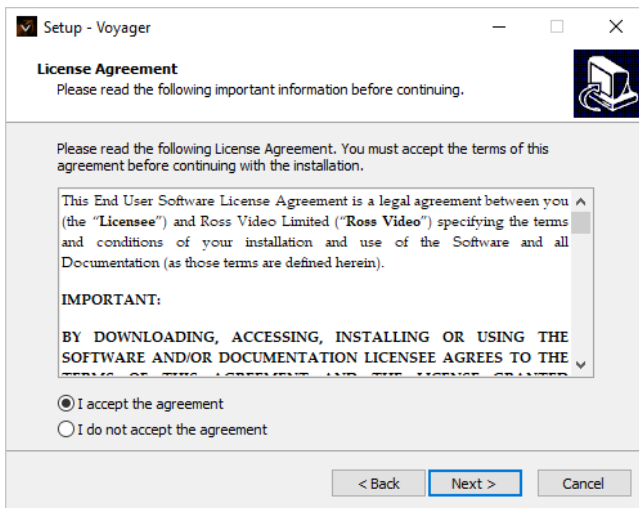

## To install Voyager:

1. Double-click the **Voyager-X.x\_xxxx.exe** file.

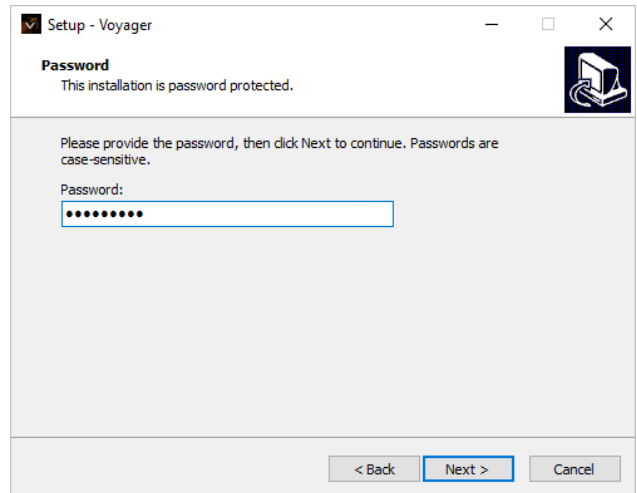

The Voyager **Setup Welcome** page opens.

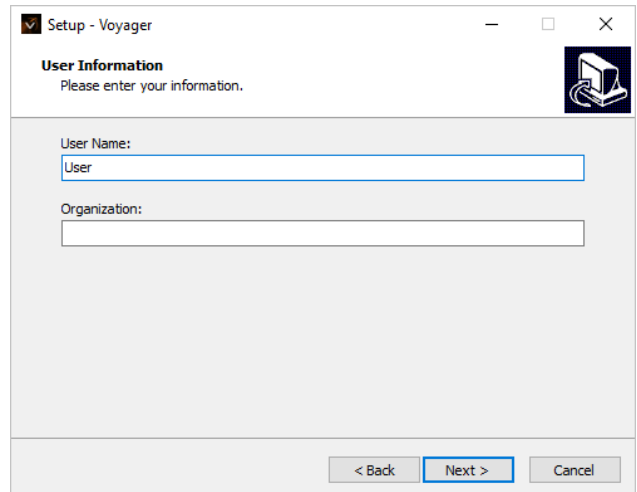

2. Select **Next** to continue.
3. In the **License Agreement** page, read the license agreement, select **I accept the agreement** to continue the installation and select **Next**.

4. In the **Password** field, enter `doinstall` and select **Next**.

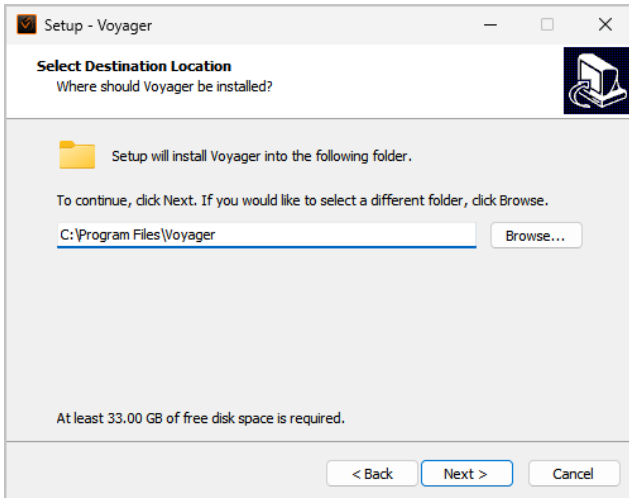

5. In the **User Information** page, enter your **User Name** (required) and **Organization** (optional) and select **Next**.

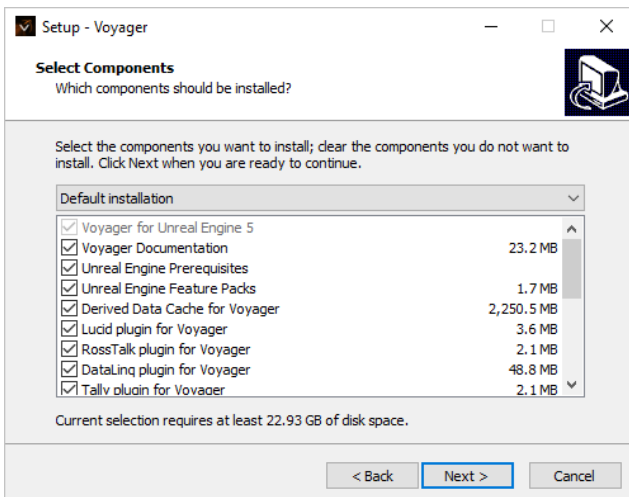

- In the **Select Destination Location** page, select **Next** to accept the default location for the software or select the **Browse** button to navigate to the folder in which you want to install Voyager and then select **Next**.

By default, the software is installed to **C:\Program Files\Voyager**.

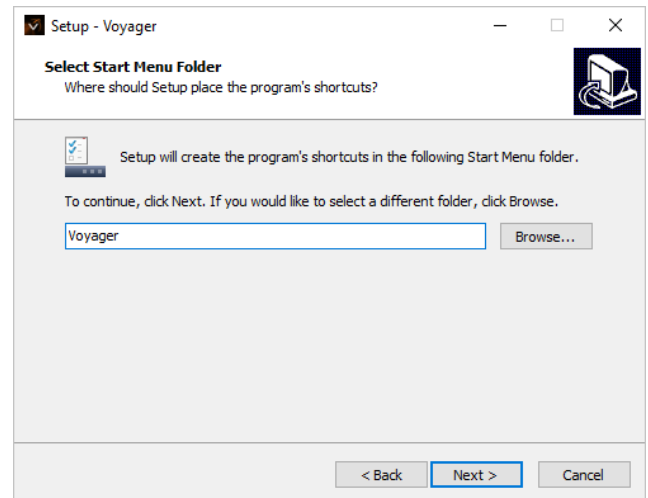

- In the **Folder Exists** dialog, select **Yes** to install to the default Voyager folder.
- In the **Select Components** page, select the checkboxes for the components you want to install and then select **Next**.

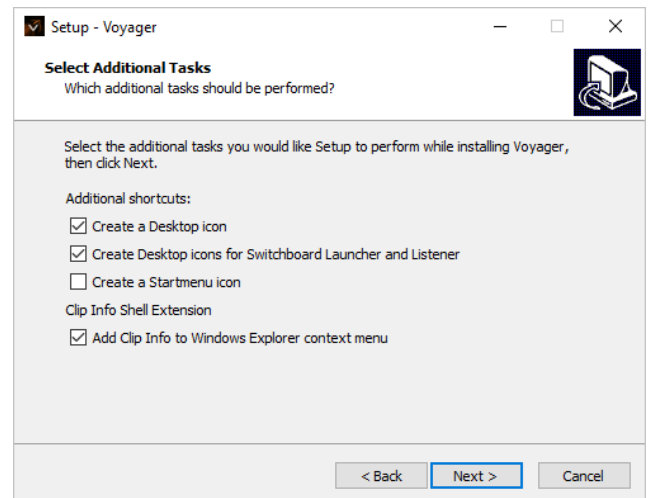

- In the **Select Start Menu Folder** page, select **Next** to accept the default folder for the program's shortcuts.

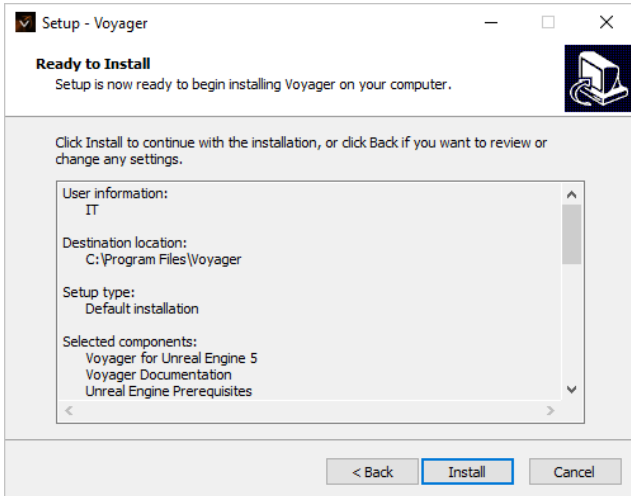

The default folder is **Voyager**.

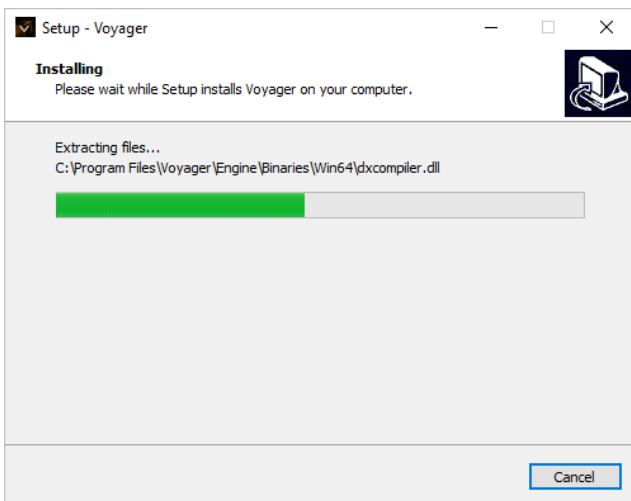

- In the **Select Additional Tasks** page, select the checkboxes to install additional shortcuts and select **Next**.

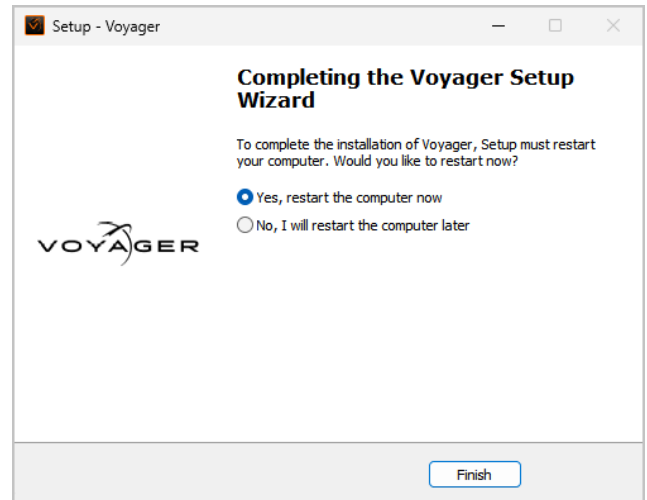

- In the **Ready to Install** page, select **Install** to begin the installation.

The **Installation Progress** page is displayed.

- In the final page, select **Yes, restart the computer now** (recommended) or **No, I will restart the computer later** and then select **Finish** to exit Voyager setup.
