Voyager Installation Guide

This document describes the installation procedure for Voyager software.

To install Voyager:

1. Click on the Voyager-4.x_xxxx.exe file.
   The Voyager Setup Welcome screen opens.

2. Click Next to continue.

3. In the Password field, enter “doinstall” and click Next.
4. In the **User Information** screen, enter your **User Name** (required) and **Organization** (optional) and click **Next**.

5. In the **Select Destination Location**, click **Next** to accept the default location for the software or click the **Browse** button to navigate to the folder in which you want to install Voyager and then click **Next**.

By default, the software is installed to **C:\Program Files\Voyager**.
6. In the **Select Components** screen, select the checkboxes for the components you want to install or select **Full Installation** if this is a new install and then click **Next**.

![Select Components Screen]

7. In the **Select Start Menu Folder** screen, click **Next** to accept the default folder for the program’s shortcuts and then click **Next**. The default folder is **Voyager**.

![Select Start Menu Folder Screen]
8. In the **Select Additional Tasks** screen, select the checkbox to create a desktop icon and/or create a **Start** menu icon and click **Next**.

9. In the **Ready to Install** screen, click **Install** to begin the installation.
The **Installation Progress** screen is displayed.

10. Select the **Show Changes** checkbox if you want to see what’s changed in Voyager and then click **Finish** to exit Voyager setup.
