

FACILITY CONTROL SYSTEM

DashBoard is a free and open platform from Ross Video for facility control and monitoring that enables users to quickly build unique, tailored CustomPanels that make complex operations simple.

Features/Benefits

- The EMMY award winning openGear platform is designed to work with DashBoard as the front end user interface for the more than 80 openGear partners using OGP (openGear Protocol).
- PanelBuilder is a powerful tool used for creating custom interfaces for products.
- Download DashBoard for free to start building panels and monitoring your openGear devices.

IBC Highlights

NDI

DashBoard now supports NewTek's NDI video over IP system, enabling live monitoring of NDI video feeds directly in DashBoard.

MORE INPUT DEVICES

DashBoard now supports off the shelf USB and MIDI devices for control of Pivot Cameras and ACID Camera paint controls.

XPression API AND RossTalkEX SUPPORT

Powerful tools have been added to expand CustomPanel capabilities for control integration with XPression.
