

MEETING CONTROL SYSTEM

World's most intuitive and flexible meeting control system. Fully integrated switcher, graphics and camera control with intuitive interface ideal for single operator use.

Features/Benefits

- Only 30 minutes of training is needed to produce broadcasts effectively.
- Adjust to changes that happen quickly and easily.
- One operator can effectively produce an entire high-quality broadcast.
- Keep your audience engaged with high quality broadcasts.

IBC Highlights

ROSS TALK

Uses OIDs instead of RossTalk to control the switcher faster and prevent sync issues.

SET UP

Single button to configure the switcher for a Lightning set up.

XPression

XPression can be easily upgraded in the future to XPression Prime to provide animated program graphics.
