IP & SDP WORKFLOWS

Achieve impressive instant replays for all your live events and sports broadcasts with an extremely flexible and very powerful multi-channel replay system.

## Features/Benefits

- Delivers remarkably fast learning curves for both novice and veteran replay operators.
- Share the load by splitting/sharing server resources.
- Adapts to wide variety of live production workflows, thanks to multi-channel architecture.
- Reduce cost and substantially streamline workflows, with integrated media file import and export tools.
