Tria is the ultimate production server that provides the flexible, feature-rich, multi-channel capability you need to deliver compelling live programming.

## Features/Benefits

- Create your ideal configuration. Tria offers either two, three, four or eight video channels.
- Integrated media file import and export to dramatically streamline file-based workflows.
- Compatible with the spectrum of resolutions and formats, including Ultra HD-4K, HD and SD.
- Tria's "video+key+audio" (VKA) architecture unifies three media elements into a single clip.

# IBC Highlights

## **PREMIUM PRODUCTION SERVER**

Our premium multi-channel production server with 4- or 8-Channels and choice of AVC-Intra (4K & HD), DVCPRO-HD (HD & SD) or JPEG-2000 (HD & SD) native recording codec.

## **ECONOMICAL PRODUCTION SERVER**

Our economical multi-channel production server with 2- or 3-Channels and JPEG-2000 native recording codec, for SD & HD video formats.

## **NEWS PLAYOUT SERVER**

This 4-Channel server gets your news to air faster than ever before—by eliminating slow file transcodes and playing native-codec news clips directly from central NAS, or from internal SSD. Supports HD & SD video formats.
