

# Ultriscape

## SOFTWARE DEFINED MULTIVIEWER PLATFORM

Ultriscape is a high performance software enabled multiviewer platform for Studios, OB Vans, and Flypacks.

## Features/Benefits

- Easily add new multiviewer outputs through additional software licenses.
- Ultriscape is an integrated multiviewer within the Ultrix platform.
- Each multiviewer head is completely independent and supports 100 PIPs per head, offering tremendous flexibility for layouts and control.
- Ultriscape is low latency and extremely high quality and is designed for the most demanding applications.

# IBC Highlights

## **RICH MULTIVIEWER CAPABILITIES**

Each multiviewer head supports up to 100 pips. Completely independent and individually controllable providing superior flexibility.

## **INDUSTRY LEADING QUALITY**

Pristine image quality, and low latency make Ultriscape ideal for the most demanding applications and venues.

## **INDUSTRY STANDARD CONTROL PROTOCOLS**

Industry standard routing control and multiviewer tally protocols means easy integration into automation systems as well as 3rd party router control systems.
