acid

ACID Cameras have been designed for maximum HD performance in any studio production environment.

Features/Benefits

- Create beautiful, clean, true high-resolution chroma keys using the patented 0:4:4 UltrachromeHR output.
- Designed to work perfectly with Ross Robotics. These lightweight, compact and rugged cameras are a perfect fit in a variety of locations and applications.
- Heighten your creativity and lighting techniques with HDR on the H200 ACIDCam.
- The ACID cameras are specially designed to integrate seamlessly into Ross Virtual Solutions.

HIGHLIGHTS

HDR

Utilize the latest developments in HDR technology through Hybrid Log Gamma (HLG) and Perceptual Quantization (PQ) to capture the full breadth of colors and contrast in any scene.

H200

The ACID H200-UCHR is a fully progressive top of the line performer that offers ultra-low noise, ultra-high sensitivity, and an ultra-wide gain range. These three features combine for noiseless images in nearly any environment.

Z50

The Z50 is a moderately priced performer for slightly less demanding applications and fits well into mid-range production systems. It teams up perfectly with Ross Robotics for legislative, corporate, and house of worship applications.
