DEVELOP FUTURE PRODUCTION ROCKSTARS
Teaching with industry-leading tools from Ross provides students with the foundation needed to become top industry operators.

Teach production workflow

Technology has enabled whole new ways of producing and delivering television and Ross can help modernize your curriculum to ground students in traditional methods while expanding their knowledge into new areas like automated production, augmented reality and social media.

Invest in flexibility

Easily transform a control room to suit different types of productions - from news to sports to live auditorium productions and everything in between.
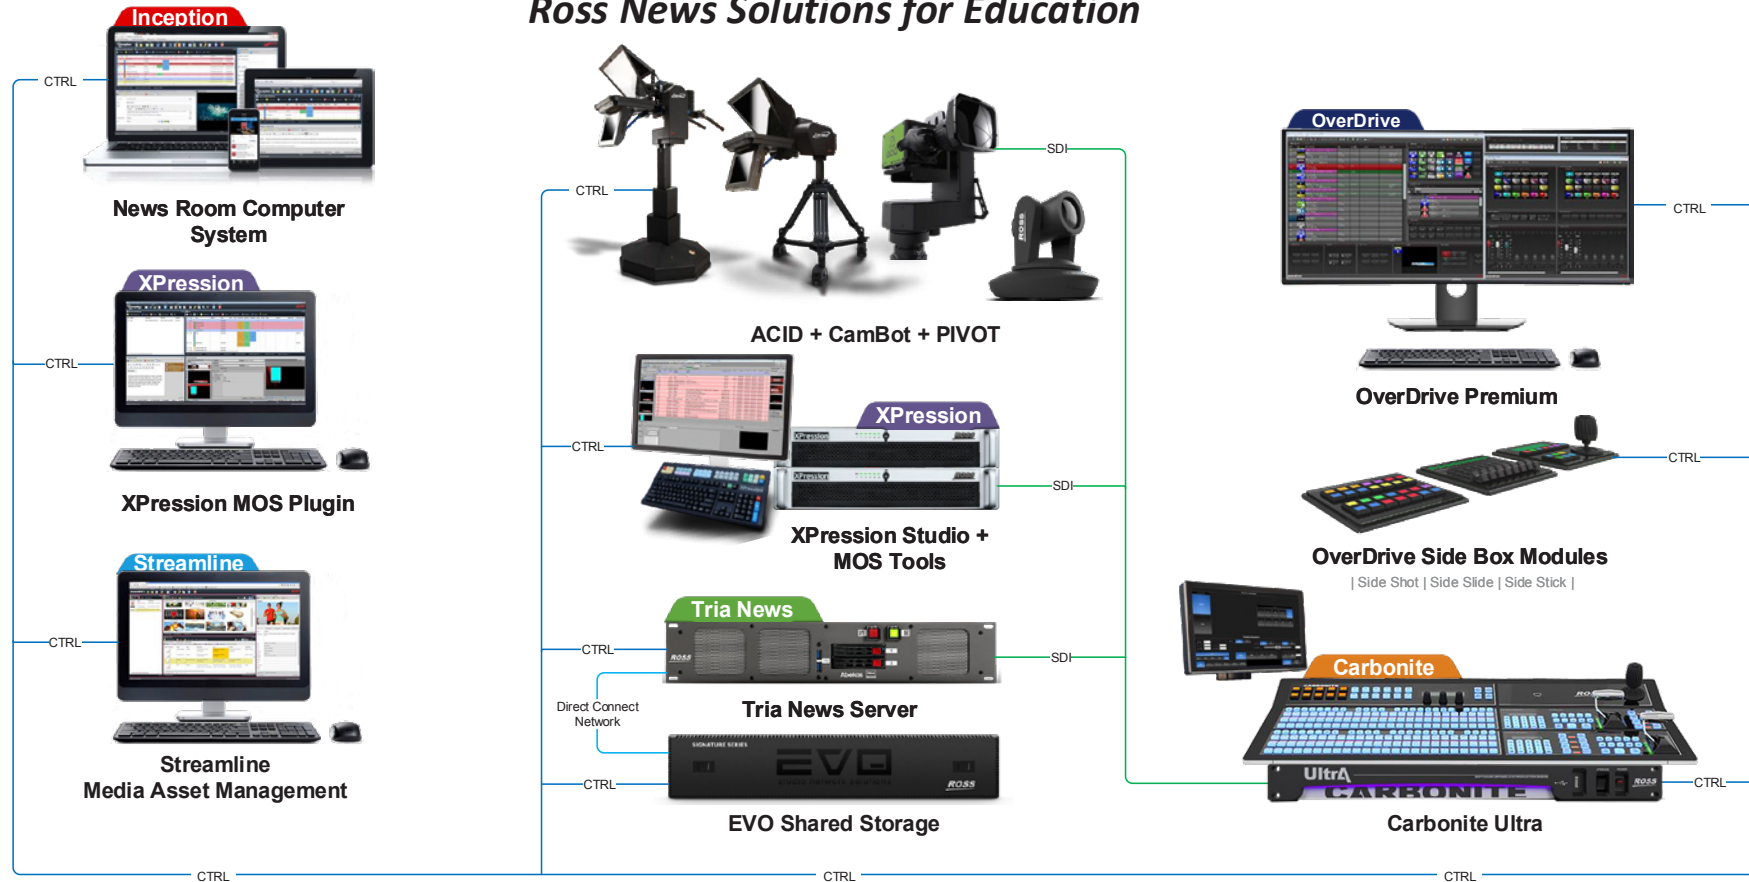

Scale your solution

Ross has a deep portfolio of products, enabling you to start small and add equipment as the educational program grows.
