HOUSE OF WORSHIP

BUILD YOUR SPIRITUAL COMMUNITY

The modern world of worship leverages the use of technology for spiritual purposes. Large and small venues are incorporating IMAG, online, and multi-campus productions to reach a broader believer-base cost-effectively.

Amplify your spiritual message

Display and update pertinent speaker and sermon details including passages and hymns in real-time, or bring in remote guest speakers from across the globe. Using video production and social media tools, combined with broadcast-quality, dynamic graphics and interactive content, you will be able to create the ultimate worshiper experience.
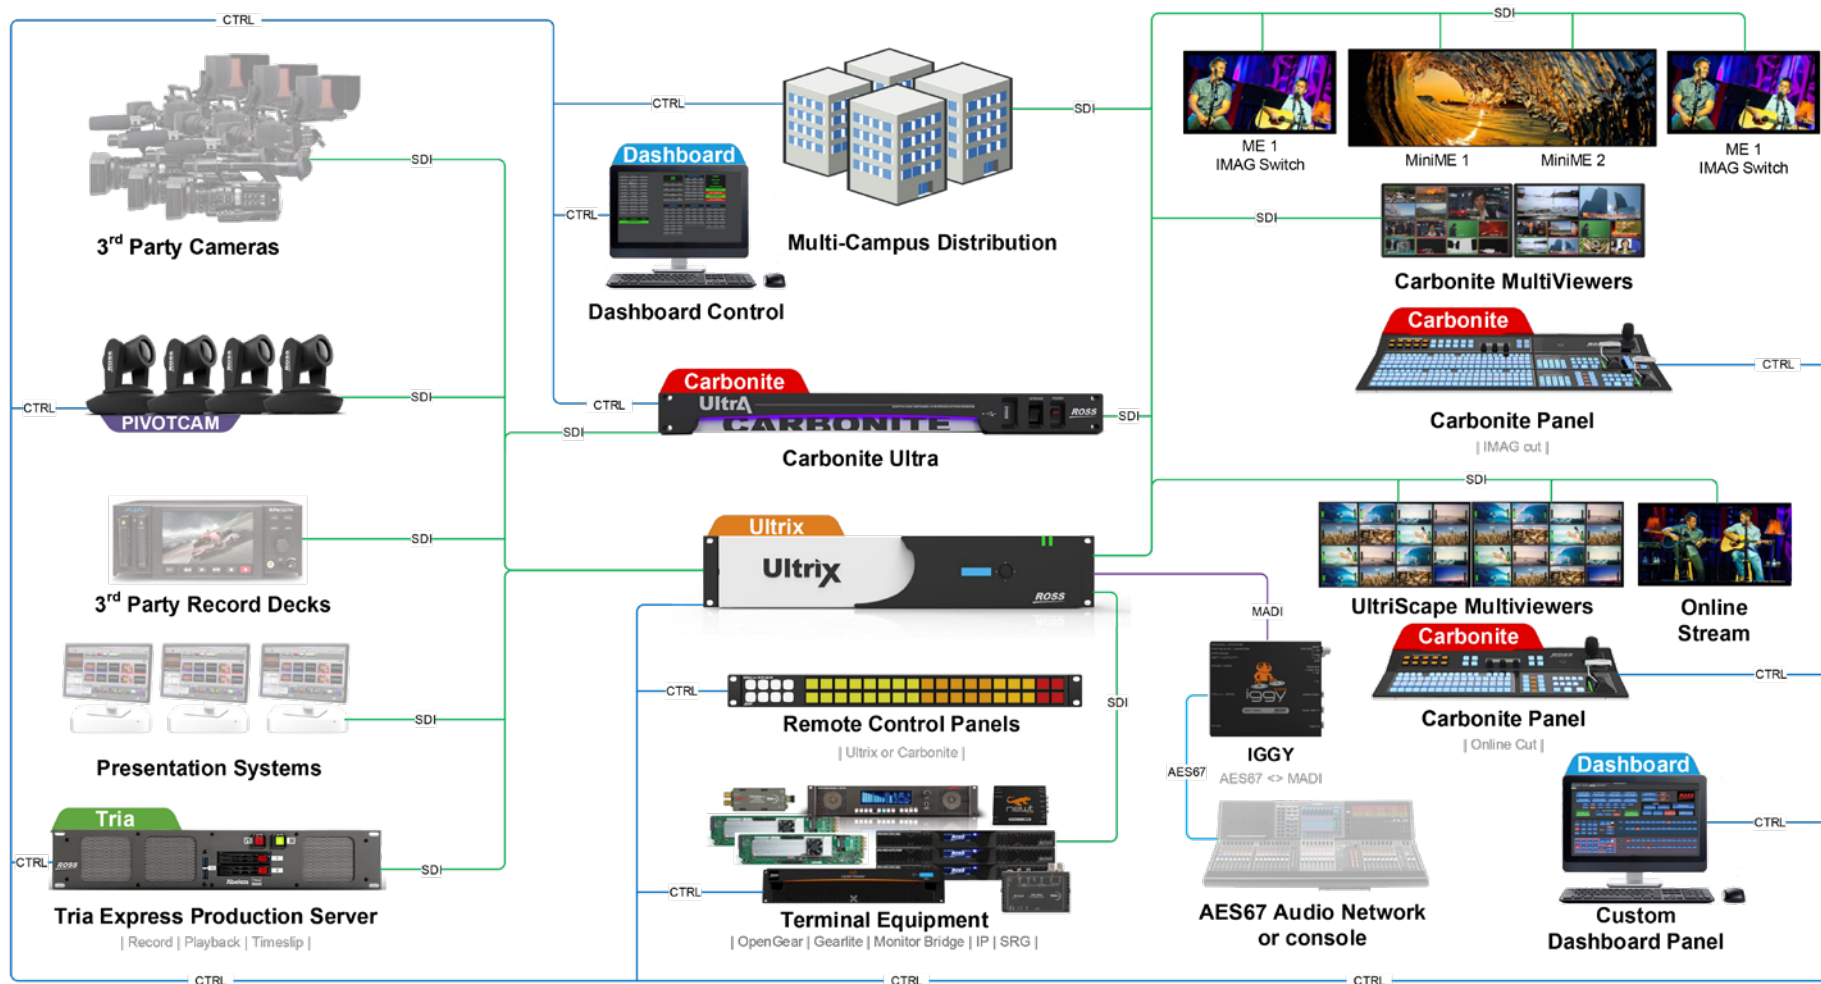

Reach a wider congregation

Reach local and remote believers including adjoining rooms and satellite campuses easily and effectively.

Make it easy

The Ross House of Worship production solution with unified device control is easy to set up and intuitive to use. Realize expert productions from your volunteer community.

DASHBOARD
Facility Control System
- Included Mac | PC | Linux Software
- Control Ross devices on the network
- Monitor devices across campus networks
- Build custom panels for simplified workflow controlling multiple devices simultaneously

ULTRIX
16x - 144x UHD Routing Platform
- 1RU - 5RU frame size
- Full audio matrix including audio shuffling and non-blocking MADI integration
- Software-Defined MultiViewers and frame syncs to easily grow the video system
- Clean switch on every output
- DashBoard control + RossTalk integration

CARBONITE
1 - 3 ME Production Switcher
- Multiple frame and panel sizes & DashBoard software control
- Up to 3 control surfaces per frame
- Full ME's and MiniME with Multi-Screen capabilities pairs perfectly with Pro Presenter
- Powerful custom controls
- Easy to learn and volunteer-friendly

TRIA
Production Server
- Hardware base video server for frame accurate playback with multiple channels of audio
- Rock solid recording capabilities
- Time slip capabilities for multi-campus production
- Automate control through DashBoard and / or Carbonite

PIVOT
Pivot PTZ Camera
- Cost effective PTZ camera
- Control from DashBoard and Carbonite production switchers
- Crystal clear images from High Resolution sensor
- Fast recall times
