

MULTI-CHANNEL REPLAY SERVERS

Add attention-getting instant replays to all your live events and sports broadcasts with extremely flexible and very powerful multi-channel replay systems.

## Features/Benefits

- Adapt to a wide variety of live production workflows, thanks to a flexible, user-configurable, multi-channel architecture
- Reduce costs and substantially streamline workflows with integrated media file import and export tools
- Leverage remarkably fast learning curves for both novice and veteran replay operators
- Mira+ easily splits/shares server resources between two operators, while Mira Express offers core replay functionality at an exceptionally cost-effective price

# **HiGH** **IMPACT** **EFFICIENCY**

**NON-STOP RECORDING AND LIVE INSTANT REPLAY**

**ERGONOMICALLY DESIGNED FOR EASE OF USE**

## HIGHLIGHTS

- Mira+ replay systems fitted with AVC-Intra hardware are now offered in 6-, 8-, and 12-channel models.
- Media storage capacities of 280 hours or 580 hours.
- Advanced motherboard improves overall server performance and adds 10GigE connectivity—greatly enhancing Growing File Export for NAS live editing workflows.
- Prices for Mira+ systems have been substantially reduced: more power, more channels and more storage—for way less money!

- 4-ingest/2-playout replay server built upon a rock-solid platform.
- Mira Control Surface has a new look inspired by the Carbonite Black aesthetic. Same functionality; way cooler look!
- MiraTouch DashBoard touchscreen control interface for live horse racing productions; additional sports coming soon.
- NEW Price of Mira Express has been substantially reduced! The 'sweet spot' of low price and core professional replay functionality just got sweeter.
